#### SPINKS IS GIVEN DECISION.

Insurance Company Must Pay on Policy Issued on His Father's Life.

Frankfort, Ky.—The Kentucky court of appeals in affirming a judgment of the Campbell circuit court in the case of the United States Life Insurance Co. of New York against Harry Spinks, holds that under the law of New York "dividend additions" means that proportion of the surplus in the bonds of the company accumulated from premiums and profits of the company. It is further declared that a defaulting policy holder's share of the "dividend additions" is to be ascertained as of the date of the failure to make any payments of premiums, on the basis of the American experience table of mortality, with interest at 2 per cent per annum. In other words, the court holds that the defaulting policy holder shared in the same proportion that the policy had contributed to the creation of the surplus.

In the case at bar the deferred dividend additions carried a \$25,000 policy over the death of the insured. The case will undoubtedly go to the United States supreme court.

#### MOUNTAIN TRAINS PLUNGE.

Crew and Some Passengers Killed When Engine Leaves Track.

Lexington, Ky.—A combined freight and passenger train on the Mountain Central railroad, a narrow-gauge line running from Natural Bridge, Ky., to Campton, in Wolfe county, left the track on a mountainside near Campton and plunged some 200 feet down the valley below, smashing the train into splinters and killing nearly all the crew and passengers. Most of the passengers jumped when the engine left the track. The engine was built especially for mountain climbing and had drawn many heavy loads up and down the steep inclines. It got beyond control at the top of the mountain, and before it had gone far, struck a curve and made for the valley below. A wheel, broken from the engine, was left hanging in the top of a tree that grew near the mountainside.

Maysville, Ky.—A strange woman well dressed and accompanied by a small boy and girl, met Joseph Carpenter, a building contractor, on the street, and asked him to take care of the children until she went to a depot for her valise. Carpenter stood on the street corner waiting for the woman to return. Stanley Porter came along two hours later and Carpenter asked him to assist in finding the woman. Porter suggested that each take care of the children home. Both wanted the girl, but finally agreed that Carpenter should take the girl and Porter the boy. A search is being made for the woman, but she is believed to have left the city.

That An Insane Man Was Badly Beaten at the Asylum By Attendants.

Lexington, Ky.—Daniel Adams, Fred Pharris and J. M. Claggett, three of the four men indicted for the alleged murder of Fred Ketterer at the state insane asylum last June, pleaded not guilty and their trials were set for next Monday. Claggett surrendered to the sheriff and was sent to jail. Richard Champion is the only one of the accused not yet in custody. Attorney J. Franklin Wallace, who started the investigation into the death of Ketterer, placed the grand jury in possession of information regarding the death of Whitley Johnson, of Breathitt county, who died at the asylum August 1. Wallace had an affidavit sworn to by Dr. John Karagoulian, an attendant at the asylum, to the effect that Johnson was beaten by attendants while strapped to a bed. Wallace also charges that Johnson's body was held by the asylum officials long enough to allow decomposition to set in. He is also in possession of affidavits from members of the dead man's family relative to the condition of the body upon its arrival at their home in Athol, Ky. A. D. Johnson, a brother of Whitley Johnson, told the grand jury that upon its arrival at the Johnson home the body was in such a state of decomposition that it was impossible to remove it from the coffin in order to dress it for burial, and that the pillow was soaked with blood. It was reported that the grand jury had returned in dictaments against two of the attendants.

#### LIKE THEIR PASTOR

And Give Other Churches a Tip Not to Extend Calls.

Louisville, Ky.—Jealous of the prestige of the pastor who has served them nearly 30 years, and determined to retain his services, the congregation of the Second English Lutheran church in mass meeting passed resolutions notifying all other churches that Rev. Harlan K. Fenner, D. D., will not be permitted to leave Louisville.

The action was the outcome of overtures which have been made to Rev. Dr. Fenner within the last two weeks by an Ohio congregation. While there was no reason to believe that Dr. Fenner contemplated accepting the call, should one be received, the officers of the congregation and the members of the church thought it well to express their views before the matter had gone further.

### JEWELS LURED HIM

TO COMMIT CRIME AND INDIAN GIRL BECAME HIS VICTIM.

#### THEATRICAL AGENT CONFESSES

Murder Was Traced To Him By Stoler Gems—Mrs. Leslie's Death No Longer a Mystery.

Chicago, Oct. 24.—Howard E. Nichols confessed to the police that he murdered Mrs. Theodore Bizzard, better known by the stage name of Margaret Leslie, the Indianapolis actress who was found dead in her room in the Palace hotel. The first police inquiry and the coroner's verdict set down as suicide, and the solution of the mystery as a plotted murder came with startling suddenness.

Nicholas, who had been held by the police "on suspicion," was subjected to severe and continuous examination, and finally broke down completely in Capt. O'Brien's office, after he had been confronted by a man to whom he had sold some of the murdered actress's jewelry. This man identified the prisoner unequivocally.

Then, in the confession, which was forthcoming soon afterward, Nicholas furnished the police with information that will lead to his apprehension within a few hours.

#### Motive Was Robbery.

The motive for the crime was robbery, Nicholas and Leopold having planned the murder several days in advance of its execution.

Mrs. Leslie, as she was generally known, had \$2,000 worth of jewelry consisting of diamonds and gold rings. After having killed the woman, the two murderers divided up the booty and the police found some of the jewelry in the possession of Nicholas.

Nicholas first offered to tell his story if granted clemency, but, on this being refused, made a complete confession. He said that he and Leopold went to the woman's room and, after a few moments' conversation, he suggested that they have a drink, producing a bottle of whisky. Mrs. Leslie was taking of her jewelry at the time and her back was turned toward them.

While in this position Leopold, according to Nicholas, seized the woman by the throat and choked her into insensibility.

Throwing her on the bed they placed a towel saturated with chloroform over her face.

Selling her jewelry, which were valued at \$2,000, the men turned on the gas jets, hurried out of the room and left the hotel.

It was the anxiety on the part of Nicholas to realize money on the jewelry which led to his arrest.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional remedy on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. ## DEMOCRATIC TICKET.

For Congress  
HON. HARKNEY HELM,  
Of Lincoln.

If there is a county in the state which owes its support to McCreary it is Rockcastle. We find no fault with any Democrat for supporting Gov. Beckham, it's as much your privilege to support the Governor as it is ours to support Senator McCreary. But to those who are inclined toward Beckham we want to put this simple question; which of the two men has been a friend to Rockcastle? Has it been Governor Beckham or has it been Senator McCreary? Who has always come to our aid when we needed help? We answer Senator McCreary. Who has turned down Rockcastle people on every question presented to him? We answer Governor Beckham. As the old saying goes, "Liars can figure, but figures don't lie." Likewise, facts which we know to be facts, we should let govern our acts, rather than be guided by those things, the truth of which we know not. When we cast our votes for Senator McCreary, we are voting for a man who will represent all his people and not just a chosen few. This great government of ours is a government by the people and for the people and not a government of graft and grafters, such as we have been experiencing in Kentucky for the past few years.

It is just a little more than a week until the election. Let every Democrat in the county keep this fact in mind and make it a point to be at the election on the sixth day of next month.

Rev. H. D. C. MacLachlan, of Shelbyville, writes an open letter in which he makes startling charges. He charges that S. W. Hager, as Chairman of the campaign committee, received from Chas. P. Dehler, Secretary of the Brewer Combine, a check for \$3,500 in consideration of which Governor Beckham agreed that the interests of the liquor people would be guarded during his (Beckham's) term as Governor.

The letter says in part: "I personally saw the check referred to; it is dated Louisville, Ky., Oct. 28, 1903; given on the German Insurance Bank of Louisville, Ky., for \$3,500 made payable to S. W. Hager, chairman, and signed Chas. P. Dehler; it was duly indorsed by S. W. Hager, chairman, and paid through the Union National Bank of Louisville. Now, Mr. Chas. P. Dehler is secretary of the Brewers combine in Louisville and also of the Central Consumers Company, which is the political organization which has charge of the allied beer and whisky interests in the State. It is alleged by Chas. P. Dehler that this check was given to Mr. Hager on a distinct pledge given by Gov. Beckham himself on the morning of the 28th of October 1903 at the tenth street depot in Louisville, and in consideration thereof the liquor interests would be safe-guarded during his (Governor Beckham's) term of office, and in particular that the county unit bill would not be allowed to pass.

It is a matter of common knowledge that this pledge was kept and the unit bill held up until the last Senatorial campaign. I also upon examination found it to be true that Chas. P. Dehler gave the check which was cashed by Mr. Hager at the Union National Bank necessarily to be used for campaign purposes for the benefit of Gov. Beckham, who was then a candidate for Governor, and Mr. Hager, who was a candidate for Auditor in 1906; that said Dehler was appointed by Gov. Beckham on his staff and is now serving as such, and he was afterward appointed by him as a commissioner of the Lakeland Asylum. This \$3,500 whisky money was received by these, now alleged, friends of temperance, they, the whisky people do not give up their money without they

receive proper pledges.

Now I am one of those who believe that there should be honor among thieves and that a pledge given to the whisky interests is as binding upon a man of honor as one given to a rickless cause. I am further of the opinion that one who will break faith with the liquor dealers will break it also with the Anti-saloon League whenever it is to his interest to do so. What the temperance people want is not trumped-up advocates of their cause, but honest men in power. Shall the temperance vote of this State be cast for men who are not only proved corrupt, but faithlessly corrupt? It is said that the election of Gov. Beckham and Mr. Hager will mean a victory for temperance, because it will teach politicians of this state hereafter to respect the temperance vote.

With all due deference, it will do nothing of the sort. The politicians know very well the true inwardness of the campaign, and Gov. Beckham and Mr. Hager's election will only teach them that the temperance voters of Kentucky may be made catspaws and playthings of for the private ends of any designing politicians who care to degrade a high and moral issue to the level of ward-heeling politics.

H. D. C. MACLACHLAN, Minister of the Christian Church, Shelbyville, Ky.

In reply to a letter to Judge Hager concerning the check in question, Mr. MacLachlan received the following letter.

"Office of S. W. Hager, Candidate for Governor, Frankfort, Ky., Oct. 17, 1906—Rev. H. D. C. MacLachlan, Shelbyville, Ky.: I am in receipt of your letter of the 15th inst., addressed to Judge Hager, requesting that he advise you within three days concerning the assurances purported to have been given by Judge Hager and Gov. Beckham to Mr. Chas. P. Dehler in exchange for contribution to the Democrat Campaign Committee in 1903, of which Judge Hager was chairman. Judge is absent from the city and will not return for several days. I have talked to him over the telephone in regard to your letter, and he bids me to say to you that he will not be home in time to answer your letter within the time mentioned therein, but to assure you that he never accepted any check upon his pledge to anyone nor did he see Mr. Dehler or anyone else at the Tenth-street depot in Louisville and make a pledge of this or any other character. Upon his return here within the week he will answer your letter. SARAH W. MAHAN, Sec."

The statements in the above letter are no doubt correct, but it is not alleged that Judge Hager made any promise, but that Governor Beckham made the promise and on the condition of that promise the check was sent to Judge Hager, as chairman of the Campaign Committee. Judge Hager had nothing to promise. He was running for Auditor, and as such, would have no influence over legislation. J. C. W. Beckeam, as Governor of Kentucky, had the power and influence to control any kind of legislation he desired, and in inimitable style of Percy Haly, "We just delivered the goods to both sides."

A dispatch from Louisville to the Cincinnati Enquirer says: Governor Beckham has capitulated. The birth-right of the cause of temperance has been traded for a possible mess of senatorial portage. Every saloon in this city was wide open to day. No attempt was made by the police to exercise surveillance or to interfere with the traffic in liquor. The Board of Public Safety is complacent. Its members show no alarm. Word has gone forth that John Crepps Wickliffe, Beckham, Governor of the Commonwealth of Kentucky, by the grace of accident first and of suffering more latterly, has receded from the high and austere plane of temperance upon which he planted his virgin banner, and will accept the sullied vote of the interests he so lately traduced and spurned.

The situation is chaotic. The temperance ranks are astounded and dumb. Forsaken in hour of their dire necessity, almost the hour of their triumph by the gallant young crusader whose brave utterance and heroic attitude had dynamite effect upon their wavering, unofficerd legions, they are shaken like a ship by the tempest and are drifting rudderless and without a pilot. Only this morning from the pulpit Beckham was heralded as

the reincarnation of the greatest and best of all the reformers who have gone before; to night in the same quarters the belief is firm that a metempsychosis has taken place.

It is difficult to interpret the meaning of the sudden shifting of the scenes. It was pointed out in these dispatches a week ago that the Governor was suspected of playing a dual role. The assertion was made also that he was flirting with the liquor interests; in the large vote controlled by them. It was apparent that the result of the primary depends largely upon the vote of Louisville and Jefferson county. A week ago the prohibitionist and the temperance people were united almost solidly behind the Governor. Had the Governor been able to remain behind his mask there could have been no doubt of the outcome here. With both elements looking up to him as conservator and friend his calling and election seemed sure.

The liquor people are jubilant to night. They accept conditions to day as indicative of the Governor's future policy. The abiding fear that they would get the hot end of it no matter which way their vote might be cast has been removed. If the understanding were but a half hearted agreement there would be more concern in their ranks for fear that it might after all be an ante-election machination to catch the necessary vote. I seem to be generally understood to night that the agreement is one that mortgages the future as well as the present.

The great accretion to the Beckham ranks from the liquor interests is certain to be very largely offset by the panicky desertion of the temperance people, who profess to see in to day's conditions here a Jekyll-Hyde leadership that is self seeking and untrue to their cause.

## POLITICS AND POLITICIANS.

By a change in plans, announced in Washington Tuesday, representative John Sharp Williams, of Mississippi, will not speak in New Albany to night as intended, but will appear at Cincinnati, Ky., instead. His place will be taken at New Albany by Congressman-elect Richmond Pearson Hobson.

Judge Edward C. O'Rear, of Montgomery county, member of the Court of Appeals, will be urged for appointment as United States District Judge of the Eastern district of Kentucky, should Judge A. M. J. Cochran, of that court, go up to the United States Circuit Court upon the elevation of Judge Lorton to the Supreme bench.

The New York grand jury yesterday dismissed as "mere camp gossip" the charges of Charles F. Murphy that Democratic candidates had been held up by the Independence League. Mr. Murphy, during the day, issued a call to the Tammany leaders to put their shoulders to the wheel in behalf of the State ticket.

The coming changes in president Roosevelt's Cabinet were announced officially Tuesday night. Upon the retirement of Shaw and Moody from the Cabinet George B. Cortright will be Secretary of the Treasury; George Von L. Meyer, Postmaster General; Charles J. Bonaparte, Attorney General; Victor H. Metcalf, Secretary of the Navy, and Oscar S. Straus, Secretary of Commerce and Labor.

With election day only two weeks distant, the campaign in New York State continues to be more active and more interesting. Both Mr. Hughes, the Republican candidate for Governor, and Mr. Hearst, the Independence League and Democratic candidate, made extended speech-making tours the past week and will continue to make such speeches from now on until the Saturday night before the election. In letters received at Washington, William Jennings Bryan says he is encouraged about the next House and that the indications are that the Democrats will capture control of it. He declares the best way to support the President is to elect Democrats as the "record" shows that the Democrats have stood by him better in the Senate and in the House than the Republicans have." He states, though that "the President does not go far enough in the direction of reform."

You can tell a successful farmer by looking at his wife's fruit in the closet. You can tell a slouchy woman by looking at her hair, you can tell the dry goods box statesman by the patches on the bosom of his pantaloons. You can tell the poisonous serpent by the bluntness of his tail. But the easiest thing of all you can tell the enterprising merchant by a glance of the local paper. DON'T BE A KNOCKER:—Hide your little hammer and try to speak well of others no matter how small you may really know your self to be. When a stranger drops in, jolly him. Tell him this is the greatest town on earth—and it is. Don't discourage him by speaking ill of your neighbors. There's no end of fun minding your own business. It makes other people like you. Nobody gets stuck on a knocker.

By some crook or turn we know not exactly how, the project to buy the fine German Coach horse, which has been on exhibition here for the past two weeks fell through with, just at the last moment, even after the special agent had arrived to close deal and make the transfer of the horse to the company. He is a fine horse and the kind of a horse we need in this county, and we regret very much that the deal was not consummated. The horse was taken to Covington.

James Williams and Miss Sophia Caldwell were married in Louisville yesterday at the home of Dr. Redd, where Miss Caldwell went over a week ago for a visit. After the wedding the happy couple went to Seelbach's hotel for a bridal supper, and will remain there a few days before they return to London. The bride is a daughter of Dr. T. P. Caldwell, one of London's most prominent physicians. She is a beautiful and accomplished young woman and a universal favorite. With all our heart we wish them a long, prosperous and happy married life.—Laurel County Local.

THOMPSON-HUGHES:—Miss Annie Elizabeth Thompson, second daughter of Mr. and Mrs. F. L. Thompson, an exceedingly beautiful and attractive young lady, and Mr. Logan R. Siler, of Williamsburg, the present Commissioner who is a candidate for reelection. Dr. Black is a high toned gentleman well qualified for the position and will no doubt be a strong man in the race.

SPLENDID RECORD:—Dr. W. J. Childress, of Livingston, has certainly made for himself, during the past few months an enviable reputation in the treatment of typhoid patients. A citizen of Livingston told us, that during the typhoid season Dr. Childress had treated more than twenty cases of fever of the most serious type and had lost only one or two of his patients. This is certainly a splendid record and the Doctor can justly feel proud of his splendid success.

ARTICLE READ AT THE FIFTH STATE DEVELOPMENT CONVENTION AT WINCHESTER BY DR. A. G. LOVELL.

Rockcastle county is situated on the borders of the great eastern coal fields, is well watered by numerous creeks, where beautiful bottom lands are unsurpassed in fertility of soil. Though a great part is rugged, any and all points can be reached by easy grades; and material for road building can be found along every mile of road in the county. The product of her dimension-stone quarries find a ready market in the east and north—and her ballast quarries furnish metal for hundreds of miles of railroad. Two-thirds of her surface has a good, strong limestone soil with good clay bottom, which gives best results in the use of fertilizers. The

denuded hills quickly reproduce the native forest when not under cultivation.

The coal veins, though thin, supply fuel for home consumption. In this connection, the Skeggs creek section is worthy of special mention; there are several thousand acres of coal which will average 4 ft. thick. The top is composed of an impure canal coal, and the bottom of an excellent quality of soft coal. The canal coal varies from a few inches to three feet and makes the roof over the soft coal. The soft coal is comparatively free from sulphur, while the canal coal is saturated with sulphur, though it burns with a flame and produces an intense heat, the residue is a heavy red ash. Its probable use would be in the manufacture of sulphuric acid.

Asphaltum is found in the immediate vicinity of Mt. Vernon, but it has never been exploited to determine its quality or quantity.

The aluminum, deposits or aluminous clay deposits cover vast acres and are of remarkable purity. The writer hopes to see the day that the Cumberland falls, or Rockcastle river below Livingston, shall be made to generate the electricity to extract this valuable metal from these clays, then it fits that Mt. Vernon will be to this industry what Birmingham is to the iron trade. Geologists tell us that the Skeggs creek slates are identical with the diamond bearing slates of Brazil. Rockcastle's sand beds and gravel quarries are of excellent quality, inexhaustible, and convenient to railroads. The famous Rockcastle conglomerate lentil crosses the county between Mt. Vernon and Livingston. It makes the cheapest and best concrete in the world. In the Brown Memorial Institute, Mt. Vernon, has one of the best schools in Kentucky. The elevation here is about 1200 feet above the sea level, and one of the healthiest points in the United States.

## RENT PAYS FOR THE LAND.

FERTILE SECTIONS OF THE SOUTHWEST, WHERE LAND SELLS FOR \$15 AND RENTS FOR \$5 PER ACRE.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for \$5 per acre cash and can be bought for \$7.50 to \$15 per acre. It costs \$6 to \$10 an acre to clear it. Other improvements necessary are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth \$45 to \$60. This accounts for its high rental value. Other crops such as corn small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton a cutting, and brings \$10 to \$16 per ton. In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit growing. Land is very cheap, \$5 to \$10; improved farms \$10, \$15 to \$25 per acre.

The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$5 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

The Missouri Pacific-Iron Mountain System Lines sell reduced rate roundtrip tickets on first and third Tuesdays of each month, to points in the West and Southwest, good returning 21 days with stopovers. For descriptive literature, time tables, etc., write to

## THE FARMER.

In farming like every other business one has to apply up-to-date methods to methods to make it pay. The man that is grinding his life away on a farm using the same old methods that his forefathers used is making no money. He needs to learn new ideas and methods and the very best way to do this is to subscribe for a few of the leading farm and stock papers that are being published. A few dollars expended in such will be one of the best investments that he could make. He will learn not only how to get more out of his land but will learn many ways in which to decrease the hard drudgery that in past years has always seemed essential in farm work.

## SOUTHWEST

The Land of BIG CROPS and PROSPERITY

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying to make a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

SEE THE SOUTHWEST AT SMALL COST

A trip to the Southwest would convince your best interests lay in settling there. The trip can be made at very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest, on or via the Cotton Belt Route at very low rates. Stop-overs will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc. L. C. BARRY, T. P. A., Cotton Belt Route, 82 Todd Bldg. Louisville, Ky.
